

## Introduction

What is the truth regarding the relationship between our works as a Christian, and salvation? Within most Christian circles today we have gone too far, often emphasizing the security of the believer even though they walk in rebellion toward God's will in their life, *after* turning to Him. We love to quote Ephesians 2:8-9, while often ignoring what Paul says in verse 10 regarding the Christian's responsibility toward the "good works" God prepared beforehand for us to walk in.

In this writing I expose the lies of the devil that have kept many of God's people in bondage for years. We will look at what the Lord refers to as "saving faith" and how it's directly related to our works.

The day of God's vengeance on earth draws near and the majority of the church in America are unprepared, apathetically sitting in their pews with a false sense of security. I pray that what you are about to read will open your eyes and set you free.

We must awake from our demonically induced spiritual coma before it's too late. The King of kings is coming soon to take His rightful throne on earth. Beforehand, though, we must take a good look within us to be sure that He is on the throne within us.

Presently, we are a nation filled with foolish virgins. The good news is, the Lord, through difficult circumstances, is about to wake up those who can be awakened. Praise the name of the Lord for the great things He is about to do in our midst!
